# We Bring You up to Date on the Latest Versions

## Expand Your IT Security Knowledge and Become an Expert

In our training courses, we show you how to professionally use our security solutions, in order to ensure the highest level of protection for your IT. Or would you like to know how hackers work, so that you will be able to protect your network from attacks? Then attend our Hacking Boot Camp.

## Training Courses on a Wide Spectrum of Topics

In order to meet our clients' requirements, we offer training courses on a wide spectrum of topics in several different locations. Ask us, if you would like to attend a training course that is individually tailored to your requirements. We would be glad to provide you with an offer.

| Hacking Boot Camp | |
|---|---|
| **Learn the tricks of the hackers to protect your network** | |
| Goal: | to know the tools and methods that hackers employ, and to detect and prevent attacks |
| Required prior knowledge: | UNIX, TCP/IP |
| Duration: | 3 days |
| Contents: | procuring information, sniffing, social engineering, cracking passwords, scanning, web hacking, exploits, and WiFi |

## genuscreen Administrator Training
**Learn how to use the appliances correctly**

| | |
|---|---|
| Goal: | to know the main firewall and VPN functions and to be able to use them |
| Required prior knowledge: | UNIX, TCP/IP, network administration |
| Duration: | 1.5 days |
| Contents: | structure, functionality, installation, configuration, and central administration via management station |
| Certificates: | Certified genuscreen Administrator including Certified genucrypt Administrator |

## Remote Maintenance Administator Training
**Learn how to securely implement remote maintenance**

| | |
|---|---|
| Goal: | to be able to configure remote maintenance connections with genubox through various protocols and to use them via app and web browser |
| Required prior knowledge: | UNIX, TCP/IP, complex network administration |
| Duration: | 3 days |
| Contents: | structure, functionality, installation, central administration via management station, application scenarios, and troubleshooting |
| Certificate: | Certified Remote Maintenance Administrator |

## genuconnect Only Administrator Training
**Enable secure, flexible working**

| | |
|---|---|
| Goal: | to be able to install and to manage genuconnect |
| Required prior knowledge: | genuscreen Administrator Training and genucenter Administrator Training |
| Duration: | 1 day |
| Contents: | Installation, rollout with SCCM/MECM as well as operation, support, and best practices |
| Certificate: | Certified genuconnect Administrator |

## genuconnect Administrator Training
**Learn how to connect the VPN Software Client correctly**

| | |
|---|---|
| Goal: | to be able to install and to manage genuconnect and genuscreen with genucenter |
| Required prior knowledge: | genuscreen Administrator Training |
| Duration: | 2,5 days |
| Contents: | genucenter basics, VPN definitions and VS-NfD conformity as well as genuconnect installation, rollout with SCCM/MECM, support, and best practices |
| Certificate: | Certified genuconnect Administrator |

## genucenter Administrator Training
### Keep an eye on your IT security systems

| | |
|---|---|
| Goal: | to be able to install, configure and use the management station, in order to centrally administer security solutions |
| Required prior knowledge: | genuscreen Administrator Training |
| Duration: | 1.5 days |
| Contents: | installation, GUI structure, important functions, and high-availability concept |
| Certificate: | Certified genucenter Administrator |

## genugate Administrator 1 Training
### How to use the firewall correctly

| | |
|---|---|
| Goal: | to be able to administer and update genugate as well as to create and maintain its rules |
| Required prior knowledge: | UNIX, TCP-IP, complex network administration |
| Duration: | 2 days |
| Contents: | structure, functionality, configuration, administration, and system monitoring |

## genugate Administrator 2 Training
### Become a firewall expert

| | |
|---|---|
| Goal: | to be able to install genugate, retrieve it from backup and to use it as a high-availability solution |
| Required prior knowledge: | genugate Administrator 1 Training |
| Duration: | 3 days |
| Contents: | installation, configuration, and administration in demanding environments, high-availability options, and troubleshooting |
| Certificate: | Certified genugate Administrator |

## genugate Expert Training
### Learn how to get more from your firewall

| | |
|---|---|
| Goal: | to be able to configure and use genugate's special features |
| Required prior knowledge: | genugate Administrator 2 Training |
| Duration: | 2 days |
| Contents: | configuration and administration in complex environments using LDAP, WAF, and REST-API |
| Certificate: | Certified genugate Expert |

## genugate Release Training
**Stay up to date with the most recent versions**

| | |
|---|---|
| Goal: | to become familiar with all the latest features and to be able to use them |
| Required prior knowledge: | genugate Administrator 2 Training |
| Duration: | 1 day |
| Contents: | new features of the current genugate release |

## cognitix Threat Defender Administrator Training
**Recognize and prevent unexpected activities in your network**

| | |
|---|---|
| Goal: | to know how cognitix Threat Defender works and how to use it to analyze and secure your network |
| Required prior knowledge: | UNIX, TCP/IP, administration of complex networks |
| Duration: | 1.5 days |
| Contents: | functionality, installation, configuration, and administration |
| Certificate: | Certified cognitix Threat Defender Administrator |
